

TeleMed Applies Advanced NII Technology to HealthCare

- Develop “smart” TB patient record
- Reduce cost of treating MDR TB
- Extension to all chronic illnesses

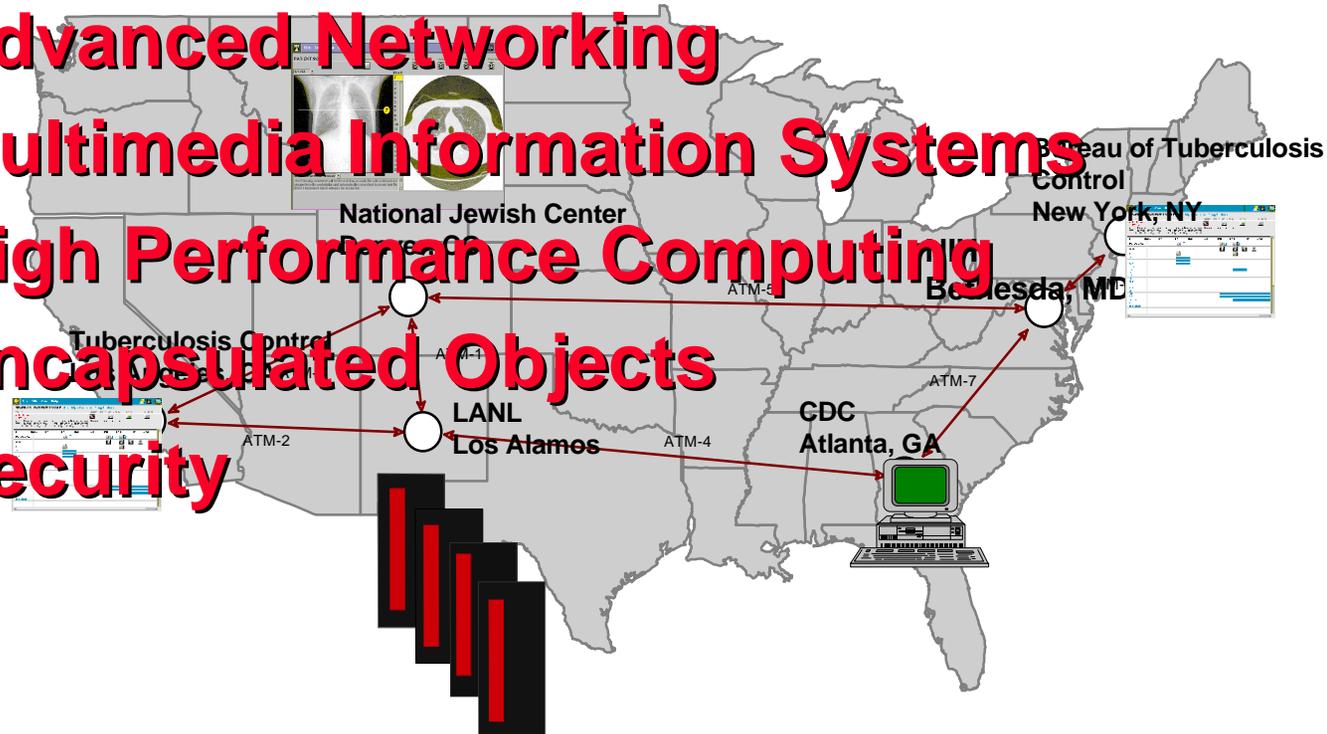

Sunrise TeleMed Network

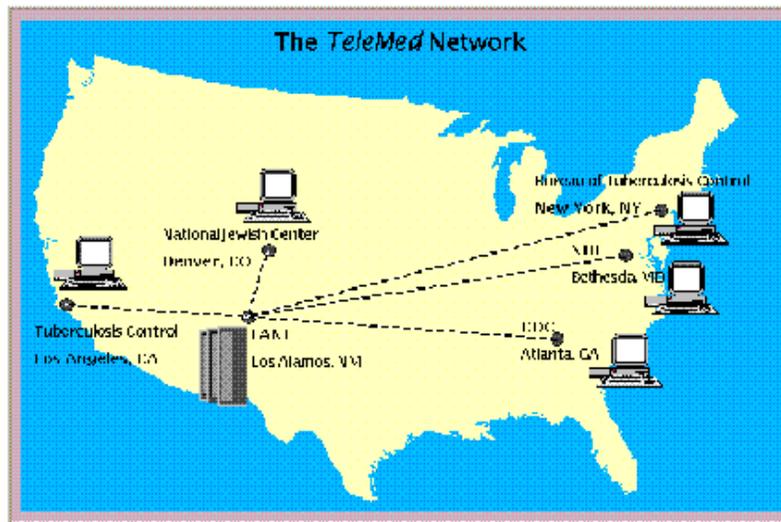

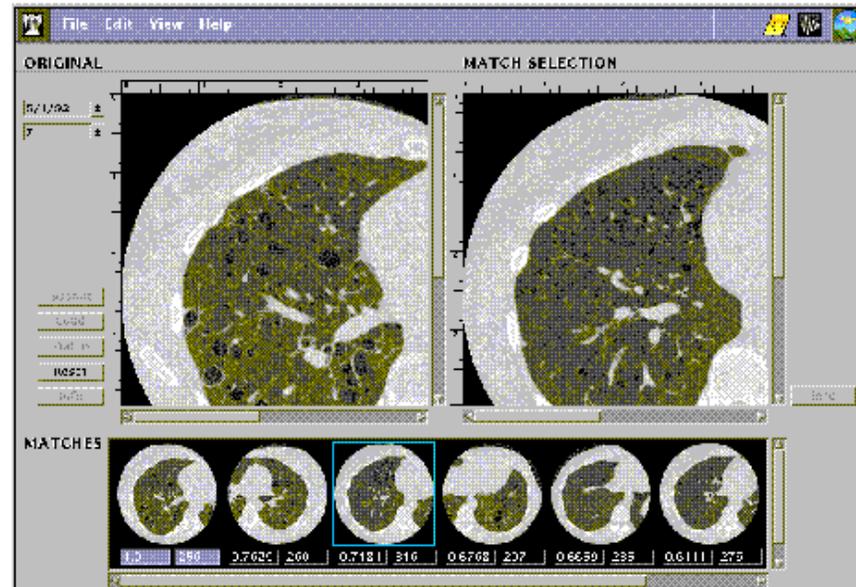

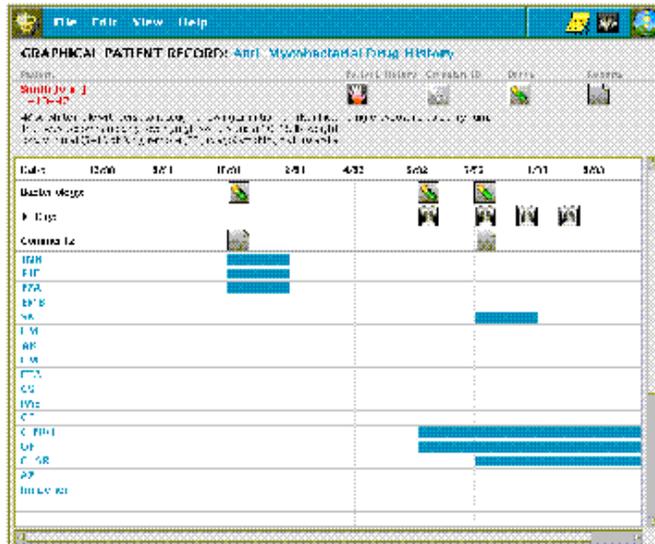

TeleMed Network Builds on Advanced NII Technologies

- **Distributed Computing**
- **Advanced Networking**
- **Multimedia Information Systems**
- **High Performance Computing**
- **Encapsulated Objects**
- **Security**

Remote Telecollaboration Capabilities

TeleMed

- multimedia graphical patient record
- integrated consultation, lab, and image data
- virtual patient record, using distributed object technology
- search and retrieval of similar radiological images
